

Make your family's holidays special— Teach generosity to your children

"Too often we under estimate the power of a touch, a smile, a kind word, a listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn a life around." —Leo Buscaglia Author, Professor (1924-1998)

In September, the *Wall Street Journal* reported that with a poverty rate of 77%, Haiti is the poorest country in the world. The World Bank notes that more than half of Haiti's population lives on less than \$1 a day, while about 80% of the country lives on less than \$2 a day. In Haiti, many parents and children can't read. Our District Rotary Project is working on this issue.
